## Objective

---

Aspiring Frontend Developer with proficiency in HTML, CSS, JavaScript, Typescript, React.js, and Next.js. Currently a final-year IT student, expected to graduate in July 2025. Experienced in building responsive web applications, implementing SEO best practices, and integrating multi-language support. Skilled in using Git for version control and Figma for design collaboration. I'm looking for an internship where I can level up with real-world experience and great teammates.

## Skills

---

**Frontend:** HTML, CSS, Javascript, Typescript, React.js, Next.js, Tailwind CSS, Shadcn UI, Bootstrap.

**Backend:** Nestjs

**Others:** Git, Github, Vercel, Figma, MySQL, Firebase.

**English:** VSTEP B2 Certificate, May 2025 (Score: 8.0/10)

## Education

---

**Saigon University - SGU**

2020 – present

*Bachelor of Information Technology*

GPA: 3.46/4.00

## Projects

---

**wolvn.org – Multi-language CMS website for Word of Life Vietnam** [🔗](#)

01/2025 – 03/2025

*Role: Fullstack Developer - Team size: 2*

- Built the website and content management system from scratch using Typescript, Next.js, React.js, TailwindCSS, and Firebase.
- Implemented SEO best practices, resulting in 145 organic clicks and 1.8K impressions over the last 3 months on Google Search.
- Integrated i18n for seamless language switching (English/Vietnamese), improving accessibility and expanding user reach.

**belvietech.com – Promotional website & CMS for Vietnam Dried Fruit Company** [🔗](#)

10/2024 – 12/2024

*Role: Fullstack Developer - Team size: 2*

- Developed a fast, mobile-optimized promotional website using Typescript, Next.js, React.js, TailwindCSS, and ShadCN UI to showcase the company's dried fruit products.
- Built a custom admin panel for product and content management, allowing non-tech staff to manage listings and updates without developer support.
- Applied SEO best practices to improve search visibility.
